A word from the editor

I want to start with the fact that English proficiency is always useful to you. And this is so, because thanks to the knowledge of the English language you will be able to perceive more information than others. You can communicate with interesting people and just to impress all the others with their knowledge of a foreign language.

Learning English can be not only useful but also enjoyable:

- The feeling that you are every day learn something new and improve yourself, with nothing to compare. I'm sure you will never forget the moment when for the first time talking with a foreigner or understand what was going on in a particular film.*

- You will attract the learning process, if you realize that every day your English becomes more advanced.*

Believe me, knowledge of English will make you stronger and more confident. And I hope that now you'll learn English with great pleasure)

Maryna Zaharova,

An English tutor

Why is it interesting for me to learn English?

English is the most popular language in the world. It is an official language of many continents of our planet. But what does this language mean for me? I've been studying this language more than ten years. That's almost half of my life. It has become for me almost like a native

language. I think I don't know it perfectly but maybe I can tell something.

English is a quite simple language. Sure, it has some difficulties like the tenses but

all the languages have

their own peculiarities.

First of all English helps me feel confident. Also, I'm sure it will be necessary in my future life and will be seriously connected with my future profession

I am not sorry about spending most of my life studying English. It is very useful and interesting. You always will get a new experience.

So, study English and everything will be excellent in your life!

My English life at school

When the academic year finished, we had an opportunity to spend a part of our summer at the school summer camp “Sunshine”.

*We
spent
three*

weeks there. During the first week we could get acquainted with our group and our guest –

the foreign volunteer. By the way, our group was called “Rainbow”. We had two classes gathered there: A-class and B-class. I liked the atmosphere from the very beginning.

At the camp we had lots of different interesting tasks and entertainments. For example, it was fun to draw pictures on the pavement in front of the school or speaking with the foreigner.

Our lovely teacher Maria Oleksandrivna guided our group.

She made a great contribution creating interesting tasks which impressed us a lot.

I want to thank her and other teachers who took part and came up with the summer camp for us. It was great! I loved it!

My speaking skills

His name is Paulino.

He liked us from the first second as soon as he came to our class. He is no ordinary appearance and luxuriant curly hair. He is a very kind and

cheerful. He communicated with us in English only.

Paulino told us about their country and the city.

About its history, customs, culture, people, economy, education and more. It was very interesting. We were delighted. After the presentation, we talked a long time with him and asked

different questions. After we took pictures with him. We would like him to come to us again.

Our achievements in sport

My name is Sofiya Rudenko. I have been doing sport since 3 years. I started with dance and figure skating and now the most favourite sport in my life is windsurfing. And now I tell something

interesting about windsurfing.

Windsurfing is a surface water sport that combines elements of surfing and sailing. It consists of a board usually 2.5 to 3 meters long, with displacements typically between 60 and 250 litres, powered by wind on a sail. The rig is connected to the board by a free-rotating universal joint and consists of a mast, 2-sided boom and sail. The sail area generally ranges from 2.5 m² to 12 m² depending on the conditions, the skill of the sailor, the type of windsurfing being undertaken and the weight of the person wind surfing.

I started 3 years ago, but these years were very hard for me. Generally, I have kinsman, which is master of sport and he have own surf-station in Crimea. He told me to try myself in this sport and it was one month before competition. I thought, that I would look at the participants during the competition, but I could not imagine myself trainings every of competition try myself. I won start of my sports I have a lot of me in different have very friendly station.

with them. So, I had day. And then the day began, I was ready to this day. It was a little career. And of course, friends, which can help situations. Really, we atmosphere in our

Last of windsurfing in summer I was a trainer the surf-station. I received a lot of fun feels of my work. By the way, most people think that the windsurfers do sports only in summer. It isn't true. We have our training all year round.

I like this kind of sport very much. It is really very dangerous, but then you see two-meter waves in a big sea and the wind that achieves 15 meters per second, you can feel some independence.

Gymnastic is my life

Sports play a big role and it is an essential part in my life. People all over the world are fond of sports and games.

Many people do sport in our country. They want to stay healthy, keep their fit, to be more organized. Many people do sports on their initiative. Sport also makes people strong and prepares a lot of joy.

Sport is paid much attention to in our educational establishments. Gymnastics is a part of children's daily activities in the kindergarten. Physical Education is a compulsory subject at school and colleges.

Professional sport is also paid much attention to in our country. In city, where I live, there are sporting societies, clubs, and complexes.

Sport is a good mean of struggling with stress.

Practically all kind of sports are popular in our country.

As for me, I go in for Rhythmic Gymnastics. It needs mobility, liveliness and much energy. Rhythmic Gymnastics is a really flexible sport. System of gymnastics that dealt with flexibility, strength and coordination. It is a modern type of gymnastics with the performance of systematic physical exercise with the aid of such hand apparatuses such

as ropes, hoops, balls, clubs, and ribbons. The elements include jumps, pivots, balances, and flexibility monuments.

At the age of 6 years, when I was small, activity child my mum took me to the gymnastic. I remember my first training which I really liked. Since I cannot believe my life without gymnastic. I get a really joy taking part in competition because I take only first place. I have very exactingness, responsible and clever couch, which I am happy and glad.

In addition I have more than 200 medals different place. Sports did with me congregation and purposeful person. For this I want to thank my mother and father.
